

### **About Avtospetsprom LLC**

The company has started its activity in 2012. Now the capacity of Avtospetsprom allows production of up to 100 units of ambulances, as well as special-purpose vehicles, for example, for transportation of people with disabilities, per month.

The company is the main supplier of such vehicles to both state and private medical institutions of Ukraine, non-governmental and international organizations.

Ambulances are manufactured in types A1, A2, B and C on the Citroën, Peugeot and Mercedes chassis in full accordance with State Standard of Ukraine (DSTU) 7032, which, in turn, conforms to the European standard DIN EN 1789 (Transport of medical and its equipment. Ambulances). In addition, the rules of subgroup WP.29 (World Forum for Harmonization of Rules for Vehicles of the European Economic Commission for Europe) are taken into account.

Quality control of products is carried out in accordance with international standards ISO 9001 and ISO 13485 (Quality Management for Medical Devices).

Avtospetsprom's own design department in cooperation with clients constantly works on improvement of ergonomics, reliability and comfort of interiors of ambulances both for doctors (paramedical teams) and for patients. Considering the experience of physicians and long-term practice of operating vehicles produced by Avtospetsprom LLC, engineers of the company constantly improve approaches and ways of placement of electrical equipment, connections and fixtures, built-in furniture, ensuring of noise, vibration, thermal insulation, additional air conditioning. Only the best components and materials of Ukrainian and European production are used in the process.

A distinctive feature of Avtospetsprom LLC is the use of a monolithic fiberglass wall as a basis of the interior, which has an increased resistance to damage and disinfectants in comparison with ABS plastic base.

Thus, Avtospetsprom Ltd. can proudly say that it has achieved the market leadership due to the constant improvement of its products - ambulances, which today, by all parameters, provide the best conditions for patient transportation and work of health care workers.

In addition, Avtospetsprom LLC is the only enterprise in Ukraine to receive type certificates from the State Enterprise "State Motor Transport Research and Design Institute" for each produced unit of transport, thus confirming compliance of vehicles with quality standards and requirements for such transport.

Avtospetsprom is also registered with the State Service of Ukraine for Drugs and Drug Control and has a declaration of compliance with the technical regulation on medical devices (according to the Cabinet of Ministers of Ukraine Decree No. 753 of October 2, 2013).

In 2019, the company produced over 500 ambulances of all types.

Now, the company employs about 100 highly qualified employees, who understand that in the matter of saving lives, even the smallest screw is not a trifle!
